Computing skills SDP reference: 07-QCTO/SDP180926144135. Other programme scopes: see accreditation register.

2027 Fee Schedule

Registration and administration: R2,000.00 once off, required before admission. For Basic, Intermediate and Advanced End User Computing, this amount is included in the advertised package total; it is not an additional fee.

Monthly tuition: IT and occupational qualifications R2,500.00; Health, Business and permitted NATED study R1,500.00. Other short courses R2,500.00 per month. End User Computing packages: Basic R5,000.00 for 5 months; Intermediate R8,000.00 for 7 months; Advanced R9,500.00 for 12 months, registration included. These are AIET study plans; complete all prescribed learning and assessment. Books and practical costs are listed by programme category below. Confirm your timetable, intake and complete quotation before paying.

Before paying, request the full written quotation for your selected programme. Confirm its intake, approval, duration, materials, practical costs and payment plan. Totals requiring confirmation are not estimates or fixed package prices.

Swan Campus: 18 Swan Street, Benoni. Woburn Campus: 48 Woburn Avenue, Benoni. Both campuses: 010 011 7240. Principal and Campus Manager: +27 64 075 1161.

Computing skills SDP reference: 07-QCTO/SDP180926144135. Other programme scopes: see accreditation register.

Business and Management NATED

N4-N6: 18 months of theory plus the prescribed workplace component.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 1,500.00	Per month for the agreed study period.
Books	R 800.00	Per block or level.
Practicals	R 2,500.00	Per block or level.

Engineering and other NATED programmes

Existing learners and permitted subject completion; confirm the remaining DHET examination window.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 1,500.00	Per month for the agreed study period.
Books	R 800.00	Per block or level.
Practicals	R 2,500.00	Per block or level.

Information Technology

AIET study plan: 12 or 24 months for full IT qualifications, as shown on the selected programme.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books	R 1,500.00	Once off.

Health and Community Services

Confirm the programme timetable with admissions.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 1,500.00	Per month for the agreed study period.
Books	R 1,500.00	Per block or level for occupational programmes; confirm your selected course quotation.

Occupational Artisan Qualifications

Boilermaker and Welder: AIET study plan of 3 years (36 months), including workplace learning.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books	R 1,500.00	Per block or level.

Other Occupational Qualifications

Confirm the programme timetable with admissions.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books	R 1,500.00	Per block or level.

Welding Short Courses

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Pipe Welding Short Courses

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Oxy-Acetylene and Cutting

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Short Courses

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Occupational Skills Programmes

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Practical Skills Support

Duration depends on the selected course, required skills and agreed timetable. Confirm before registering.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 2,500.00	Per month for the agreed study period.
Books, materials and assessment	Request a quotation	Confirm any additional costs for the selected short course.

Trade Test Preparation

Full preparation programme; assessment determines the timetable.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Trade test preparation	R 15,000.00	Full preparation programme; not a monthly fee.
Preparation plus registration/admin	R 17,000.00	Confirm any external trade test or assessment charges separately.

ARPL Assessment Booking

Confirm assessment requirements and dates.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Assessment fees	Request a quotation	A booking service does not carry a monthly tuition charge.

Business Occupational Qualifications

Confirm the programme timetable with admissions.

Item	Amount	When / notes
Registration and administration	R 2,000.00	Once off; required before admission.
Monthly tuition	R 1,500.00	Per month for the agreed study period.
Books	R 1,500.00	Per block or level.

Basic End User Computing

AIET study plan: 5 months.

Item	Amount	When / notes
Total programme package	R 5,000.00	5 months; registration included.
Registration and administration	R 2,000.00	Included in the package total. No additional registration charge.
Remaining programme balance	R 3,000.00	After the included registration amount is paid.

Intermediate End User Computing

AIET study plan: 7 months.

Item	Amount	When / notes
Total programme package	R 8,000.00	7 months; registration included.
Registration and administration	R 2,000.00	Included in the package total. No additional registration charge.
Remaining programme balance	R 6,000.00	After the included registration amount is paid.

Advanced End User Computing

AIET study plan: 12 months.

Item	Amount	When / notes
Total programme package	R 9,500.00	12 months; registration included.
Registration and administration	R 2,000.00	Included in the package total. No additional registration charge.
Remaining programme balance	R 7,500.00	After the included registration amount is paid.

Programme duration and curriculum

Boilermaker NQF Level 4: National Occupational Certificate, SAQA 123381, 540 credits. AIET study plan: 3 years. Written accreditation confirmation is pending. Welder NQF Level 4: AIET study plan of 3 years. Confirm the current approved qualification and enrolment route before paying.

AIET teaching approach for Boilermaker and Welder: 20% theory sessions and 80% practical/workplace sessions. This describes the delivery focus, not the official curriculum credit split. All knowledge, practical and workplace modules must be completed.

IT full qualification study plans: 12 or 24 months, as listed below. Two years consists of Year 1 and Year 2, each with 12 monthly tuition instalments. The plan must accommodate all curriculum learning and assessment; it is not an official fixed calendar duration.

Occupational Certificate: Cloud Administrator

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Occupational Certificate: Software Engineer

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Occupational Certificate: Cybersecurity Analyst

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Occupational Certificate: Data Science Practitioner

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Occupational Certificate: Computer Technician

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

IT Technician Short Course

Short course: confirm the skills assessment and timetable with admissions.

Occupational Certificate: Laptop Repairer

AIET study plan: 12 months (1 year), including required practical/workplace learning.

Occupational Certificate: Software Tester

AIET study plan: 12 months (1 year), including required practical/workplace learning.

Occupational Certificate: Software Developer

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Advanced Occupational Certificate: Machine Learning Developer

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Higher Occupational Certificate: Database Administrator

AIET study plan: 12 months (1 year), including required practical/workplace learning.

Occupational Certificate: Artificial Intelligence Software Developer

AIET study plan: 24 months (2 years: Year 1 + Year 2), including required practical/workplace learning.

Advanced Occupational Certificate: Cybersecurity Practitioner

AIET study plan: 12 months (1 year), including required practical/workplace learning.

Occupational Skills Programme: Advanced End User Computing

AIET study plan: 12 months. Complete the prescribed learning and assessment.

Occupational Skills Programme: Java Programmer

Complete the prescribed learning and assessment. Confirm the calendar timetable with Admissions.

Occupational Skills Programme: C++ Programmer

Complete the prescribed learning and assessment. Confirm the calendar timetable with Admissions.

Occupational Skills Programme: Python Programmer

Complete the prescribed learning and assessment. Confirm the calendar timetable with Admissions.

Occupational Skills Programme: Intermediate End User Computing

AIET study plan: 7 months. Complete the prescribed learning and assessment.

Occupational Skills Programme: Basic End User Computing

AIET study plan: 5 months. Complete the prescribed learning and assessment.

Short courses

Welding and other short courses: confirm the actual timetable following a skills assessment. Coded welding depends on the process, material, welding position and required assessment. Do not treat a monthly price as a fixed national course duration. Trade test preparation costs R15,000.00 for the full preparation programme; registration/admin is R2,000.00. Confirm external assessment charges separately.

Official curriculum references: regqs.saqa.org.za; QCTO skills programme guidelines at qcto.org.za. NATED subject completion depends on existing registration and the remaining DHET examination window.
